

PUSTOLOVNI LABORATORIJ PROFESORA BALTAZARA

Professor Balthazar's Adventure Laboratory

Gradska knjižnica i čitaonica Pula

voditelji: Zvonimir Rumboldt i Tomislav Fiket

Tradicionalni pustolovni laboratorij profesora Baltazara i ovog ljeta otvara svoja vrata pozivajući najmlađe u čarobni svijet sedme umjetnosti i izradu onog njima najdražeg – animiranog filma! Dobrodošli su svi klinci i klinceze u dobi od više-manje 7 do 13 godina.

Oni koji već nekoliko godina čekaju taj sedmi rođendan i oni koji se s profesorom Baltazarom susreću prvi put s velikim entuzijazmom kreću otpočetka s prvim koracima u svijetu animiranog filma i spremaju se za naprednu grupu druge godine.

Mnogi raniji polaznici već su iskusni filmaši željni novih, još neotkrivenih saznanja. Stoga su za njih, u naprednoj grupi, pripremljeni novi sadržaji i još uzbudljiviji filmski podvizi.

Teorijski dio laboratorija sadržavat će upoznavanje s osnovama filma i filmske umjetnosti, kao i razgovore o filmovima koje će pogledati u sklopu Pulice, a praktični će obuhvatiti sve faze kreiranja filma: od razvoja ideje i scenarija preko izrade scenografije i prikupljanja rekvizita do samog snimanja i montaže. Ovogodišnja tema radionice basne, tako da će sudionici uz pomoć voditelja ekranizirati neke od poznatih basni; bojiti i lijepiti elemente scenografije, upravljati figurama junaka filma te snimiti odabrane kadrove digitalnim fotoaparatom. Tehnikom stop animacije nastat će kratak animirani film u kojem će ove godine polaznici radionice sami dati glasove životinjama te naučiti ponešto o snimanju i montiranju zvuka.

Filmovi dviju naprednih grupa bit će i tradicionalno prikazani u Areni posljednjeg dana Festivala.

Voditelji:

Zvonimir Rumboldt: filmski i televizijski redatelj, asistent na Akademiji dramske umjetnosti u Zagrebu; mlađoj publici poznat po emisijama *Navrh jezika*, *Farma*, TV-seriji *Ne daj se, Nina*, kao i filmu *Lavanderman – istina ili mit?*.

Tomislav Fiket: redatelj velikog broja video-spotova i dokumentaraca, mlađima poznat po igranoj seriji *Jura Hura*; glavni urednik jedinog hrvatskog kanala o videoigrama, *Playomania*.

Moderators: Zvonimir Rumboldt and Tomislav Fiket

This year once again, Professor Balthazar's traditional adventure laboratory opens its door to the magical world of the 7th Art, creating what kids love best – animated films! All the children, aged between about 7 and 13 are welcome!

Those who have been waiting for this seventh birthday for a few years now, or those who will meet Professor Balthazar for the first time will start from the beginning with great enthusiasm and prepare themselves for the next year's advanced programme.

Many past attendees have already become experienced filmmakers, eager for new, still unrevealed ideas. Therefore, there is an advanced group organized for them, with more contents and even more exciting film projects.

The theoretical part of the workshop includes introduction to film and cinematic art, as well as discussions on the films which are part of Pulica, whereas the practical part comprises all the phases of film creation: from the development of the idea and the script, through set design and acquisition of film props, to filming and editing. This year's workshop is based on fables. With the help of moderators, the attendees will adapt some of the well-known fables, paint and glue set elements, manipulate film protagonists, and shoot selected frames with a digital camera. A short animated film will be created by using stop motion (frame-by-frame) animation. This year the attendees will do voices of animals and learn something about sound recording and editing.

Films made by two advanced groups will traditionally be presented in the Arena on the final day of the Festival.

Moderators:

Zvonimir Rumboldt: film and television director, assistant at the Zagreb Academy of Dramatic Art. Younger audience knows him for the shows *At the Tip of My Tongue* and *The Farm*, TV series *Don't Give Up, Nina* and the film *Lavanderman – Truth or Myth?*.

Tomislav Fiket: director of a large number of video clips and documentaries. Younger audience knows him for the series *Jura Hura*. He is one of the chief editors of the Croatia's only video games channel *Playomania*.

DoFURAJ SVOJ FILM!

bring your own film!

doFuraj svoj film! revija je kratkog amaterskog filma koja se već devetu godinu zaredom odvija kao jedan od popratnih programa Festivala igranog filma u Puli. Podsjetimo se da je natečaj prvotno nastao s idejom da filmskim početnicima osigura prve filmske korake omogućujući im prikazivanje i svojevrsnu promociju uradaka.

Ovogodišnji deveti po redu natječaj za najbolji kratki amaterski film zaključen je 1. lipnja. Prijaviti su se mogli svi zainteresirani s uratkom u trajanju do 1 minute, a jedan autor mogao je sudjelovati s najviše dva filmska uratka.

Filmovi uvršteni u natjecateljski program natječu se za nagrade: Najbolji film (ili najbolja ideja) po glasovima žirija i Najbolji film po glasovima publike, gdje pobjednika odabiru posjetitelji stranice www.max.tportal.hr online glasovanjem. Najbolji film po odluci žirija, koji je sastavljen od strane organizatora, bit će proglašen na završnoj večeri 59. festivala igranog filma u Puli, kad će autor primiti nagradu u pulskoj Areni pod zvjezdanim nebom! This year's ninth consecutive call for entries closed on June 1st. All the authors with a film lasting up to one minute could apply and one author could participate with up to two works.

Films selected for competition compete for the following awards: Jury Award for Best Film (or Best Idea) and Audience Award for Best Film (visitors decide on the winner casting their vote at max.tportal.hr). CINEMANIAC 2012 MISLITI FILM RESEARCH IN PROGRESS

cinemaniac 2012 to think film research in progress

MMC LUKA, Istarska 30, Pula
22. srpnja – 6. kolovoza 2012.

Izložba Cinemaniac predstavlja dugoročnu interdisciplinarnu istraživačku platformu koja propituje veze filma, pokretnih slika i suvremene umjetnosti, a realizirana je u formatu izložbe. Programska platforma *Misliti film*, kao *research in progress*, nastavlja se na dosadašnja iskustva rada s povijesnom baštinom eksperimentalnog filma i suvremenom umjetničkom audiovizualnom produkcijom, radovima koji formiraju specifičan odnos prema ideji filma kao prostora mišljenja filma drugim sredstvima, kritike filmskog aparata, mjesta u kojima se reflektiraju aspekti društva, ideologije, kulture.

SLOBODAN ŠIJAN: Filmski letak
Kustosice: Branka Benčić i Aleksandra Sekulić

Vizualna produkcija radova na papiru u koju pripada *Filmski letak* Slobodana Šijana umjetnička je praksa u kojoj autor eksperimentira s filmskim načinom mišljenja i željom da obuhvati fragmentarni svijet kinematičkih efekata, bilješki i slika. To su nekonvencionalni radovi intertekstualnog karaktera, koji se, odmaknuti od normativne filmske tehnologije, i služeći se različitim istraživačkim pristupima, putem drugih medija – teksta, kolaža, fotografija, videa, referiraju na svijet filma, filmsku kulturu i jezik filma. U umjetnosti avangarde i neoavangarde „film drugim sredstvima“ predstavlja dekonstrukciju konstitutivnih elemenata filma, koji se osamostaljuju kao područje umjetničkog izraza (fotografija, film strip, traka, montaža, projekcija). Želja je da se šira publika upozna s eksperimentalnim filmskim praksama Slobodana Šijana, kao i s promišljanjem filma i kritičkom praksom u umjetnosti toga redatelja.

DAMIR OČKO: On Ulterior Scale
Kustosica: Branka Benčić

Izložba Damira Očka *On Ulterior Scale* obuhvaća niz međusobno povezanih radova koji se razvijaju oko filma *The Moon shall never take my Voice* (2010). Damir Očko uz filmske izvodi niz radova na papiru, vizualne, grafičke materijale, kolaže, skice, crteže, knjige umjetnika, uključujući i tipografsku partituru *opto-fonetičkih* karakteristika. Oni blisko komuniciraju s praksama konkretne i vizualne poezije, umjetničke forme i vrste vizualnog izražavanja koja se formira na rubovima književnosti, vizualnih umjetnosti i grafičkog dizajna. Grafički elementi postaju prostor istraživanja, sredstvo kojim se može nadopuniti razumijevanje i učinak djela i proširiti prostor filmskog izraza kao kompleksne audiovizualne orkestracije.

MMC LUKA, Istarska 30, Pula
July 22 – August 6, 2012

Cinemaniac represents a year-long interdisciplinary research platform which questions the relation between film/moving images and contemporary art and it is realized in the form of an exhibition.

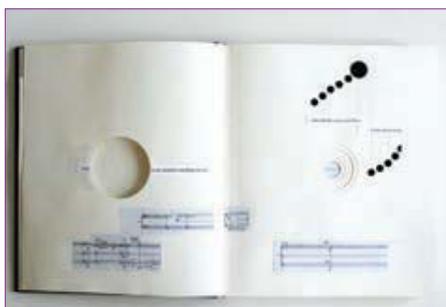

The programme platform *To Think Film*, as research in progress, leans on previous experiences of working with the historical heritage of experimental film and contemporary artistic audiovisual production, on works which form a specific relationship with the idea of film as a space for thinking film by other means, criticism of film, places where social, ideological and cultural aspects reflect.

SLOBODAN ŠIJAN: Film Leaflet
Curated by: Branka Benčić and Aleksandra Sekulić

The visual production of works on paper, the *Film Leaflet* by Slobodan Šijan being part of it as well, represents an art form where artists experiment with a cinematic manner of thinking and a wish to cover the fragmentary world of cinematic effects, notes and images. These are nonconventional works, intertextual in their nature, which, being departed from standard cinematic technology, and taking different research approaches, by means of different media, such as text, collage, photography, and video, refer to the world of film, cinematic culture and language. In the art of the avant-garde and the neo-avant-garde, “film by other means” represents the deconstruction of integral elements of film which become an independent area of film expression (photography, film strip, editing, screening). The intention was to acquaint a wide audience with the experimental cinematic work by Slobodan Šijan as well as with his vision of film and critical practice in his art.

DAMIR OČKO: On Ulterior Scale
Curated by: Branka Benčić

Damir Očko's exhibition *On Ulterior Scale* includes a series of interconnected works developing around the film *The Moon shall never take my voice* (2010). Along with cinematic works, Damir Očko produces a series of works on paper, various visual, graphic material, collages, sketches, drawings, artists' books, including a typographic score of *optophonetic* characteristics. His works closely communicate with the practices of concrete and visual poetry, an artistic form and kind of visual expression coming to life on the margins of literature, visual arts and graphic design. Their graphic elements become a

space to be explored, a means of expression that is both autonomous and complementary, and that can complete the understanding and effect of the work and widen the space of cinematographic expression as a complex audiovisual orchestration.

IZLOŽBA EXHIBITION

Jagoda Kaloper Autoportreti

Muzej suvremene umjetnosti Istre / Museo d'Arte contemporanea dell'Istria

Sv. Ivana 1, Pula

24. srpnja – 5. kolovoza 2012.

Izložba *Autoportreti* predstaviti će autoportrete Jagode Kaloper nastale od 1977. do 2012. godine. Jagoda Kaloper u svojoj je umjetnosti zarana počela s onim što karakterizira umjetnost našeg vremena, odnosno s preispitivanjem i bilježenjem vlastitog psihofizičkog stanja te njegovih promjena uvjetovanih utjecajem životne sredine i vremenskom prolaznosti. Autoportreti, rađeni krajem sedamdesetih godina, nastali su izravnim prislanjanjem autoričina lica i tijela na fotokopirni aparat te su otisnuti na xerox papire u prirodnoj veličini. Radilo se o sugestivnom i rezolutnom odgovoru na javnu percepciju lika prelijepe filmske glumice, preispitivanju odnosa privatno – javno, ali je ujedno to bila i autoričina potraga za vlastitim identiteom.

Drugi ciklus portreta predstavljaju uvećani *stillovi* uzeti iz videozapisa nastalih u posljednjih desetak godina, kada je Jagoda malom digitalnom kamerom bilježila svoje odraze u ogledalu i tako dokumentirala prolaznost, koje je i te kako svjesna i iza koje u potpunosti stoji. Nema nostalgije i nema bijega u prošlost.

Posljednja su serija autoportreta zastupljenih na ovoj izložbi slike, ponovno kadrovi iz Jagodinih filmova, ovaj put interpretirani autoričnim slikarskim rukopisom i s iskustvom vremenskog odmaka. Jagoda Kaloper u ovim trima serijama portreta progovara o prolaznosti života, entuzijazmu mladosti, otuđenoj sadašnjosti, o statusu, ulozi i percepciji žene, o odnosu javnog i privatnog... Premda se sva ta pitanja jasno iščitavaju u ovome autoričinu opusu, u gotovo pola stoljeća autoportretnog stvaralaštva kao konstanta izlazi jedino ljepota. Ljepota mlade glumice i umjetnice postupno se mijenja ljepotom zrele žene čiji je životni i umjetnički put bio posut humanošću te visokim moralnim i etičkim načelima, koji su joj pomogli u formiranju umjetničke aure koja je jednako zračila u njenim kreativnim počecima kao što zrači i danas.

Jagoda Kaloper Self-portraits

Museum of Contemporary Art of Istria / Museo d'Arte contemporanea dell'Istria

Sv. Ivana 1, Pula

July 24 – August 5, 2012

The exhibition *Self-portraits* will present Jagoda Kaloper's self-portraits created from 1977 to 2012. In her art Jagoda Kaloper started early with what is characteristic of art in our times, i.e. questioning and registering one's own psychophysical condition and its changes conditioned by social environment and the passage of time. The author made her self-portraits in late seventies leaning her face and body against a copy machine and printing them on xerox paper in natural size. This was a suggestive and resolute response to the public perception of the beautiful screen actress, questioning of the relationship between the private and the public, but at the same time author's search for her own identity.

The second self-portraits cycle is represented by enlarged stills from videos created in the last ten years, when Jagoda registered her reflections in the mirror with a digital camera and thus documented physical transience, of which she is fully aware. There is no nostalgia and no escape to the past.

The exhibition's final self-portrait series presents paintings, i.e. frames from Jagoda's films, interpreted by author's painter's handwriting and with some detachment. With these three series Jagoda Kaloper tackles the transience of life, enthusiasm of youth, alienated presence, the status, role and perception of women, the relationship between the public and the private... Although all these three questions are evidently present in this opus, the only constant of almost half a century of self-portraits is beauty. The beauty of a young actress and artist is gradually transformed into the beauty of a mature woman whose life and artistic path have been filled with humanity and high moral and ethical principles which helped her form an artistic aura which radiated at the beginning of her creative work just like it radiates now.

20. srpnja – 18. kolovoza 2012.

Kerry Brown, Novozelandski s adresom u južnom Londonu, radi diljem svijeta kao jedan od vodećih filmskih fotografa. Proteklih 18 godina radio je na različitim međunarodnim produkcijama, uključujući epske filmove *Robin Hood* i *Prometej* Ridleyja Scotta, *Uvjete predaje*, *Sve o jednoj djevojci*, *Bel Ami* te nadolazeći redateljski debi Dustina Hoffmana *Kvartet*.

Kerry se upoznao sa svijetom fotografije kao mladi profesionalni skateboarder. Počeo je fotografirati svoje kolege, a radovi su mu vrlo brzo objavljeni u *American Skateboarder Magazineu*. Zatim otpočinje karijeru fotografa dokumentirajući mlade modne dizajnere u Aucklandu i post-punk glazbenu scenu. Za naslovnicu časopisa *Rip it Up*, novozelandskoga *Rolling Stonea*, snimao je U2, Nicka Cabea i Siouxsie & the Banshees.

Imao je okoza prepoznatljive slike pa je tako postao redatelj videospotova. Režirao je više od 50 spotova, a onaj za pjesmu *Four Seasons In One Day* grupe *Crowded House* smatra se klasikom devedesetih. Dakako, Kerry je naginjao igranim filmovima. Prvi film na kojem je radio kao fotograf bila je legendarna drama o Maorima *Billi jednom ratnici*. Ovaj je nezaboravan film proslavio svojega redatelja, glavne glumce i Kerryja koji otada radi u Europi, Sjevernoj Americi i Africi. Uz posao filmskog fotografa bavi se i snimanjem video brošura i DVD dodataka.

«Fotoaparat mi je u ruci cijeli radni život», kaže Kerry. «Vjerujem da je moja glavna snaga raznolikost – radim u glazbenoj, modnoj i marketinškoj industriji, na dokumentarnim i igranim filmovima. Svaka je fotografija natopljena ovim bogatim iskustvom. Smatram da je ključ pronalazak prepoznatljive slike, potraga i hvatanje presudnog trenutka. Snimam fotografije koje prenose glumčevu izvedbu i koje pričaju priču.»

Kerry naglašava kako mu je rad u modnoj industriji, na televiziji, u glazbenoj industriji te na niskobudžetnim filmovima osigurao obuku od neprocjenjive vrijednosti za snimanje na velikim studijskim filmovima.

«Naučio sam iz iskustva. Uvijek je važno ostvariti dobar odnos s redateljem i producentom, s glumcima i s direktorom fotografije. Vrijedan sam i pošten tip koji voli fotografiju i film. To dokazujem sa svakim novim filmom.»

Kada ne radi na filmu, Kerry radi na likovnim projektima sa svojom ženom, multimedijalnom umjetnicom Rosannom Raymond, te uživa u društvu, odnosno podnosi društvo, svojih teenejdžera Salvadora i Malije.

Galerija Makina, Kapitolinski trg 1, Pula
20. July – 18 August 2012.

New Zealand-born, South London-based, regularly working all over the world, Kerry Brown is one of the world's leading unit photographers. Kerry has worked on a great variety of international films over the last 18-years. These include the Ridley Scott epics *Robin Hood* and *Prometheus*, *The Proposition*, *An Education*, *Bel Ami* and Dustin Hoffman's forthcoming directorial debut, *Quartet*.

Kerry's introduction to the world of photography came about as a teenage pro' skateboarder. He started photographing his teammates and it wasn't long before his work was being published in *American Skateboarder Magazine*. Kerry then began to focus on photography as a career and he started documenting Auckland's young fashion designers and post-punk music scene. Covering local then international bands found Kerry shooting the likes of U2, Nick Cave and Siouxsie & the Banshees for the cover of *Rip it Up*, New Zealand's *Rolling Stone*.

His eye for an iconic image led to him becoming a director of pop videos: Kerry has directed more than 50 videos and his video for *Crowded House's Four Seasons In One Day* is widely regarded as a '90s classic. Naturally, Kerry gravitated towards feature films: his first unit photographer job was on the seminal Maori drama *Once Were Warriors*. This striking feature launched its director, lead actors and Kerry and since then he has worked in Europe, North America and Africa. Alongside working as a unit photographer, Kerry also shoots EPKs and DVD extras.

"I've had a camera in my hand all my working life," says Kerry. "I believe my key strength is my diversity – I've worked in music, fashion, advertising, documentaries and feature films – and every picture I take is informed by these varied experiences. To me, whatever I'm photographing, it's all about finding that iconic image, searching for and capturing the decisive moment. I take photographs that capture an actor's performance and tell stories."

Kerry emphasises that his long apprenticeship in fashion, TV, music and low-budget films provided invaluable training for the major studio films he now shoots.

"I learnt the hands-on way and always place a big emphasis on forming good relationships with directors and producers, actors and DOPs. I'm a hard working, straight up guy that loves photography and cinema. This has been proven in film after film."

When not working on films Kerry collaborates on visual arts projects with his wife, the multi-media artist Rosanna Raymond, and enjoys (endures) the company of his teenage children Salvador and Malia.

SOLARNO SVJETSKO KINO

Solar World Cinema

Povezivanje Europe s filmom i održivom energijom

Solarno svjetsko kino putujuće je mobilno kino na otvorenom koje se u potpunosti napaja solarnom energijom. Turneja solarnog kina prekogranični je projekt koji surađuje s partnerima poput filmskih festivala, filmskih škola, nevladinih organizacija te s individualnim inicijativama. Ovaj projekt osnažuje gospodarsku i socijalnu koheziju među svojim sudionicima, promiče kulturnu raznolikost kroz film, potiče uporabu održive energije te stvara europsku i svjetsku mrežu u kojoj svi partneri imaju koristi te mogu uzajamno učiti i crpiti snagu.

O Solarnom kinu

Solarno kino potječe iz Nizozemske, ima vlastiti solarni sustav napajanja s tri solarna panela na krovu kombija, a za vožnju se koristi električnom energijom ili biogorivom. Solarnom energijom također se napaja sva audiovizualna oprema potrebna za održavanje filmske projekcije. Samo pola sata pripreme za filmsko platno i zvučnu opremu, na nekoj neobičnoj lokaciji, i sve je spremno za noćni filmski doživljaj na otvorenom. Solarno kino nudi alternativan i zabavan način promoviranja uporabe prirodnih resursa.

Solarno kino i Festival

Mobilno solarno kino dio je Festivala već treću godinu zaredom. Putujući kroz razne kampove, turistička naselja, igrališta, gradske parkove i trgove Pule, pulski turisti i usputni prolaznici gledaju zanimljiv filmski program.

Ove godine solarno kino odvodi Festival u male istarske gradove. Polazišna točka ostaje u Puli u Kulturnom centru Rojc, a zatim turneja nastavlja dalje: Barban, Labin, Premantura, Fažana i Savičenta. Turisti i lokalno stanovništvo imat će priliku uživati u toplim ljetnim večerima uz selekciju kratkih ekoloških filmova i jedan cjelovečernji nacionalni film. Barban ugošćuje film *Koko i duhovi* redatelja Daniela Kušana, Labin i Fažana pogledat će film *72 dana* redatelja Danila Šerbedžije, a Premantura i Savičenta prisjetit će se *Maršala* redatelja Vinka Brešana. Prikazujući nacionalni film, nastojimo približiti Festival ljudima koje put neće nastaviti u Pulu te onima koji možda još nisu otkrili čari Festivala i dobrog filma.

Linking Europe to Film and Sustainable Energy

Solar World Cinema is a travelling mobile open-air cinema powered by solar energy. The solar cinema tour is a cross-border project with partners such as film festivals, film schools, non-governmental organizations, and individual initiatives. The project strengthens economic and social cohesion between its participants; it promotes cultural diversity through film, and encourages the use of sustainable energy. Moreover, it creates new European and world networks from which all the partners can benefit and where they can exchange knowhow and draw strength.

About Solar Cinema

Solar Cinema originates in the Netherlands. It has its own solar system with three solar panels on the roof of a van which runs on electric power or biofuel. All audio-visual electronic equipment necessary for film screenings is solar powered. In just half an hour Solar Cinema can have its screen and sound system ready for an open-air night screening at any unusual location. Solar Cinema offers an alternative and fun way of promoting the use of natural resources.

Solar Cinema and the Festival

The mobile solar cinema has been part of the Festival for the 3rd consecutive year. Travelling through Pula's camps, tourist resorts, sports grounds, city parks and squares, tourists and occasional passers-by can enjoy an interesting film programme.

This year's solar cinema introduces the Festival to smaller towns of Istria. The tour starts at Pula's Rojc Cultural Centre as usual and then moves to Barban, Labin, Premantura, Fažana, and Savičenta. Tourists and local people alike will have an opportunity to enjoy warm summer nights with a selection of environmental shorts and one full-length national film. Daniel Kušan's *Koko and the Ghosts* will screen in Barban, Danilo Šerbedžija's *72 Days* in Labin and Fažana, and Vinko Brešan's *Marshal Tito's Spirit* in Premantura and Savičenta. Showcasing national

films, we are trying to bring the Festival closer to people who will not stop in Pula and to those who may not have yet discovered the charms of the Festival and good films.
